DETAILED ACTION

Allowable Subject Matter

1. Claims 10,30,36,41 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 10 and 36, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include projecting laser light onto a hollow tube within a hollow tube to form an outward pattern of an optical line as claimed.

Regarding claim 41, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include projecting a laser light orthogonally into a bundled capillary array.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,
